

**Attachment to the report of the  
"Physikalisch-Technische Bundesanstalt"  
(Federal Institute of Physics and Metrology)  
no. PTB-5.33-04.016**

Date: 2017-10-10

## **Software Validation Confirmation**

We confirm that the current version of GEARPAK-Cylindrical v4.2 calculates the same results from the test data, regarding number of post-decimal positions as version GEARPAK-Cylindrical v2.4, the results of which are examined and certified by the Federal Institute of Physics and Metrology.
